DARS/Transferology News

Announcements:

U.ACHIEVE 4.3.0.2 – VERSION UPGRADE

A new version of u.achieve is now available. We will be notifying your campus CAP Server Administrators and be requesting that they install the new version in the next week or so.. Once installed you will see this version on your top tool bar.

If you have questions, please contact the DARS/Transferology Team. Important highlights and updates from this release are available at: <https://clients.collegesource.com/home/display/SUITE43/u.achieve+4.3.0.2+Release+Notes>

MAJOR/MINOR FUNCTIONALITY RESTORED

With the redesign of the ISRS DARS audit reports and functionality, the ability to force a major/minor was not available without further programming. That functionality has been restored. Documentation on printing and functionality is at: http://www.dars.mntransfer.org/updates/documents/pdf/Printing_DA.pdf

SYSTEM DOWNTIME – APPL DATABASE PATCHING

Due to enterprise system maintenance, DARS/u.achieve will be unavailable for a short period of time next week. We have been told that this will occur early morning or late evening to minimize disruption and should take 30 minutes or less. A listserv notification will be emailed with details.
