A Student's defined catalog follows this hierarchy:

If catalog is forced in DA4001CP, this is the student's catalog.

DA4001CP

If a catalog in DA4001CP is not forced, the Dprog (catalog) defined in Joe Cool controls the student's catalog.

Joe Cool

If a catalog in DA4001CP, and Dprog in Joe Cool are not defined, the DARS Catalog YRTR field in ISRS ST1100UG, Area Study/Int defines the student's catalog.

ST1100UG, Area Study/Int
DARS Catalog

The catalog defined in ST1100UG, Area Study/Int may be turned off with INCLTOP #DC. This INCLTOP pound option is not recommended.
