

## Alternate Catalogs

In some cases there may be a need to assign an alternate catalog to a student for specific requirements within their programs. For example, a student that entered a university in fall semester of 2000 (20013) will be required to complete the general education requirements for the 2000-2001 catalog (assuming a one year catalog). However, that same student may not declare a major until the fall semester of 2003 (20043). The student may then be required to follow the major requirements in the 2003-2004 catalog. DARwin allows the use of **Alternate Catalogs** for requirements through the **Alt Catalog** column in the **Degree Program** as shown below.

Comments: A in major matches A in Gen Ed which means courses can't count both places. A's in Group 2 under GEN ED NT match A's in major which means courses can't count in both Gen Ed and major.

To select an Alternate catalog for a requirement, place your cursor in the box in the Alt Catalog column to the right of the requirement that you are interested in and click the left mouse button. A pull down menu will appear with the 11 choices as shown below.

The screenshot shows a software window titled "Degree Program: BA ART 20013". On the left is a tree view of requirements: BA ART, REMEDIAL, REPEATS, TRLOOKUP, SUBMITAP, 64 UPPER, WAVE US, 128 BABS, GPA 2.50, 30 RES CR, ART MAJ, ART16, GEN ED NT, \$MINOR, GEN ELECT, and FINAL APP. The main area contains form fields for Program (BA ART), First Y/T (2001 3), Last Y/T (2003 1), Title (ART MAJOR), Web Title, Program Status (Text), DFMask, CIPS, Marker List, College, Major, and Degree. A comment box explains that 'A' in major matches 'A' in Gen Ed, but 'A's in Group 2 under GEN ED NT match 'A's in major which means courses can't count in both Gen Ed and major. Once you have created a record for the student in **Joe Cool**, move your cursor to **Programs** in the tree view on the left side and click the left mouse button.

Once you open the **Programs** window enter the information for your program as represented by the examples on the screen prints below.

This is the First Y/T of the Degree Program. In this case it is the First Y/T of the BA ART program.

Enter the Degree Program that you will be assigning alternate catalogs to here.

**Memo**

The number "1" field was assigned to GEN ED NT for the BA ART program and since this student is using the Catlyt (20013) for this requirement, there is no need to enter anything in this field.

For this student an Alternate Catalog for ART MAJ is being assigned. In the Degree Program ART MAJ has "2 Alternate Catalog Y/T 2" set in the Alt Catalog column. So, the Alternate Catalog for this requirement must be entered in the number "2" field.

\$RName	DrVal	Type	CD	Cat/YT
\$MINOR	G114			2004

To assign an Alternate Catalog to a \$MINOR, left click the mouse on the Degree Program \$Markers tab.

Under \$RName enter "\$MINOR." DrVal is ISRS code you are using for that minor, which should be the same as the name you gave the "Degree Program" that represents your minor. Nothing is needed in the Type and CD columns. In the last column, Cat/YT, enter the catalog that will be used for that student's audit.

Now don't forget to save it. The alternate catalogs should now be in effect for your student.
