

# Error During u.achieve Audit

How to troubleshoot error messages on the Audit.

## Problem

When running an audit, you get a Warning that the Audit is in test status, followed by an error message:

```
Date: 12/14/16 - 09:36 AM
Stu Pendous
PROGRAM CODE: AS 5710
Inst: Anoka-Ramsey Community College
87654321
GRADUATION DATE:
CATALOG YEAR: F 2016
=====
WARNING: THE AUDIT IS CURRENTLY IN TEST STATUS.
=====
At Least One Requirement Has Not Been Met
=====

Error during u.achieve audit report: java.lang.IllegalStateException: BQ09S: No requirement found matching
ReqMainPK [instidq=73, instid=002332 , instc d= , rname=AS HR G10, rqfyt=20173 ] Caused By: BQ09S:
No requirement found matching ReqMainPK [instidq=73, instid =002332 , instcd= , rname=AS HR G10,
rqfyt=20173 ]
```

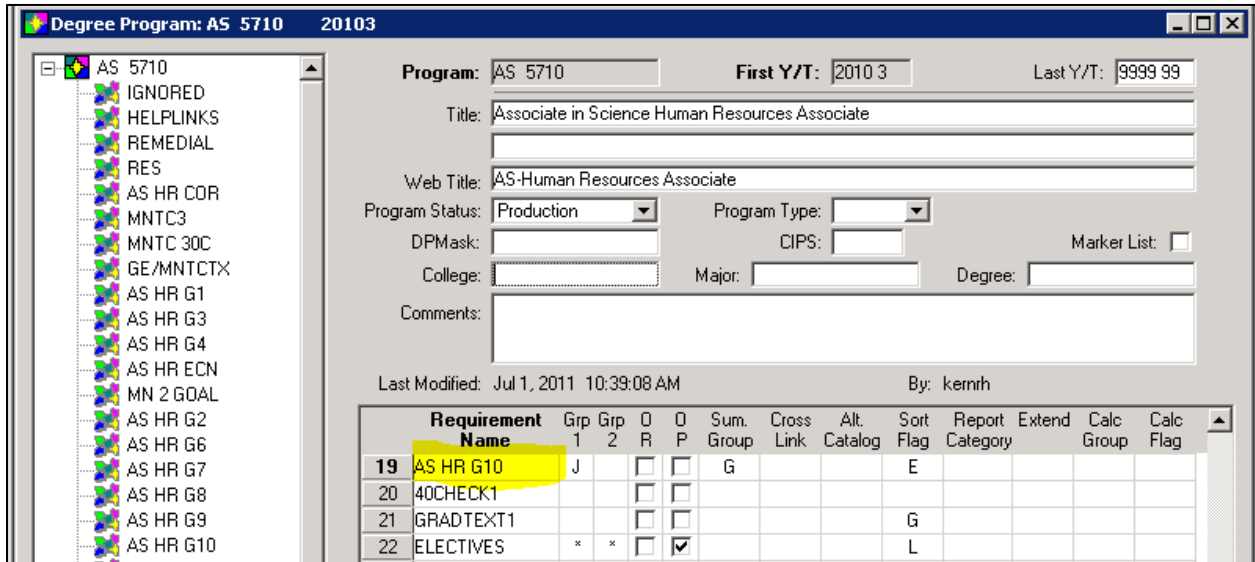

## Solution

This warning and error message means that there is an issue in the data for this program. If you look closely at the message, it will point you towards the issue:

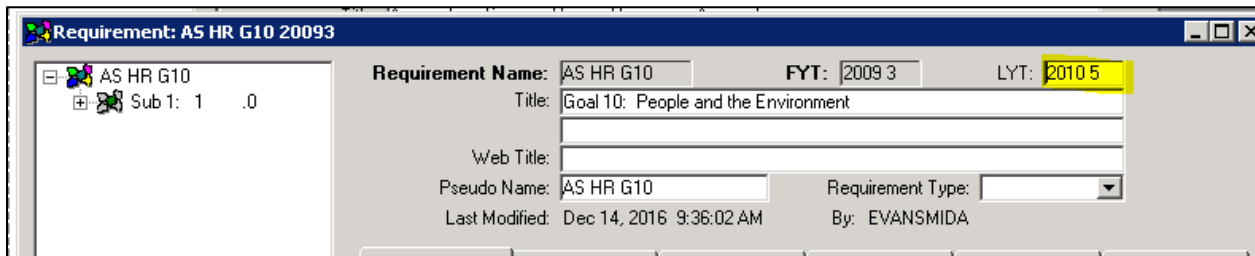

```
Error during u.achieve audit report: java.lang.IllegalStateException: BQ09S: No requirement found matching
ReqMainPK [instidq=73, instid=002332 , instc d= , rname=AS HR G10, rqfyt=20173 ] Caused By: BQ09S:
No requirement found matching ReqMainPK [instidq=73, instid =002332 , instcd= , rname=AS HR G10,
rqfyt=20173 ]
```

You can see in the message that 'No requirement found matching' then in brackets it gives you the requirement information 'rname=AS HR G10'. Use this information to look in u.achieve.

The report was for AS 5710 catalog YRTRM 20173:

But when we look at the requirement the error referenced, we see that it is end-dated as of 20105:

Since this requirement is end-dated before the catalog year we requested with the report, and there is no new version, this generated the error. Either this requirement needs to have an open LYT (9999 99), or a new version needs to be created for the Audit to run correctly.
